Selections for World championship in Italy are based on results from WC #1 and WC #2. Our team size is 4+4. Every team can select 3 runners for individual disciplines, but we want to spread the program between more runners so that only Jule and Anselm are selected for all 3 disciplines. There will always be a substitute for each race on site in case of sudden illness or injury. There is also another substitute for both women and men, who is not travelling with team to Italy, but shall be fit and ready to jump in if needed.

The last preparation camp will take place on 22.-26.6. in WOC training areas. The whole event will be held by WOC organizers and is officially called *WOC simulation week*. Many other national teams are joining too, so it will be a great opportunity to peak shape alongside the world's best. Non-traveling substitutes are of course allowed to join this last camp.
